Club Details

The cinema venue has over 100 tiered seats in an air-conditioned auditorium and has a high quality screen and digital projection facilities. It has surround sound (12 loudspeakers) and an induction loop is installed to assist members with hearing aids. The theatre has a separate bar and lounge area where members can enjoy a drink before, during and after they watch the film or live broadcast, which will help to make cinema evenings an informal and enjoyable community event. The central town location of the theatre means that there is plenty of parking nearby.
